6. Winter Science School
7. Research Camp *Planet in Your Hands*
8. Traveling Science Festival *Science in Motion*
9. Astronomical Club
10. Scientific News
11. Publishing
12. Development Policies Centre

Learning through play and fun

From leaf structure to the galaxy, from the caves to the stars, from mathematics of music to blast with no explosives, from lizards to robots, from solar trees to secret fashion styles ...

Research Camp *Planet in Your Hands* is directed to spread awareness of Montenegro as possible European model of sustainable environmental.

Authenticity and quality, which attracts an international attention, stands out in the Summer School of Science at Ivanova Korita, attended by the best students from all parts of Montenegro. In addition to speakers from home and abroad, as well as from the scientific diaspora, the program is being implemented and assisted by students at prestigious universities in Europe and the United States.

Through lectures, workshops, films, quizzes, laboratory practicum and active independent work and panel discussions, talented students have the opportunity to meet challenges in preserving the environment and biodiversity.

All camp participants take part in the reforestation in the National Park Lovćen.

Science is more than a mere accumulation of knowledge.
Science is also joy, because it is based on curiosity.

Montenegrin Science Promotion Foundation **Prona** was founded in 2004, as a non-profit non-governmental organization that aims to:

- Popularize science
- Promote scientific research
- Foster technological development
- Perform the international exchange of researchers and students
- Affirm young talents in the field of science
- Improve the information exchange in the field of science through appropriate media forms
- Raise awareness on the application of scientific results in practice
- Organize professional and scientific gatherings
- Establish science centers in collaboration with leading academic institutions in the world
- Participate in international scientific initiatives
- Support cooperation with Montenegrin scientists in the diaspora
- Promote scientific projects of strategic importance
- Support ecological, biotechnical and medical development projects
- Perform other activities that are of interest for the social status and promotion of science in Montenegro.

President of the Foundation Board is **prof. dr Jovan Mirković**

Guided by the fact that development, economic power and global prosperity increasingly depends on the scientific literacy of the young population, the Foundation Prona in the past 10 years, has initiated and organized a number of programs and events to give an outstanding contribution to the promotion of science in Montenegro:

- Six Science Festivals *Researchers' Night*
- 20 traveling Science Festival throughout Montenegro
- Seven Science Summer Schools - Research Station Lovćen
- Seven Winter Science Schools for talents
- Six international scientific conferences
- numerous creative workshops
- numerous seminars for teachers
- debates with over 200 speakers from leading scientific centers - Karlsruhe, Harvard, Cambridge, Tokyo, Stanford, Weissman, Berkeley, Oxford ...

Prona's friends and partners:

- European Commission / HORIZON 2020
- Ministry of Science of Montenegro
- Ministry of Education of Montenegro
- Ministry of Defense of Montenegro
- Petnica Science Center
- The House of Experiments, Ljubljana
- Centre for the Promotion of Science, Belgrade
- ZEZ, Zagreb
- Science, Split
- EUSEA
- IAESTE

Be a friend of Prona.

Let's contribute together to the development of Montenegro as a prosperous society of educated and creative ones, as an ecological oasis.
